2. Dividend Forecasts

No changes have been made to the dividend forecasts, which were announced on May 9, 2014 (Year-end dividend: 13 yen per share).

3. Recognition of major impairment losses

(1) Impairment loss on non-current assets in North Sea Oil and Gas Field

In terms of the estimated irrecoverable amount of non-current assets held by Marubeni Group in the North Sea Oil and Gas Field, due to the decline in crude oil prices and the increase in development costs, Marubeni expects to recognize an impairment loss of approximately ¥60 billion under “Impairment losses” on non-current assets in the consolidated financial statements.

(2) Impairment loss on goodwill at Gavilon

The performance of Gavilon for the current fiscal year is expected to fall short of the initial business plan, as was the case in the previous fiscal year. In light of these circumstances, Marubeni conducted a review of Gavilon's business plan, and expects to recognize an impairment loss of approximately ¥50 billion under "Impairment losses" on non-current assets on the estimated irrecoverable amount of goodwill in the consolidated financial statements.
